

Lead Phlebotomist

Full time permanent post – Mater Private Dublin

Mater Private Network is Ireland's fastest growing private hospital. Here, at the Mater Private Network, we take pride in being at the cutting edge of private healthcare in Ireland. We are a JCI accredited Hospital and ISO 15189 accredited laboratory.

An exciting opportunity has arisen in Mater Private Dublin for a full time Lead Phlebotomist to lead, in conjunction with the Laboratory Manager and Consultants, the Phlebotomy Department.

As Lead Phlebotomist, duties will include playing a key role in the organisation, delivery and future development of the phlebotomy service, assisting in leading and training a team of skilled phlebotomy staff, as well as identifying and implementing operational processes in phlebotomy to the standards of best practice' in order to optimise use of resources. This is an excellent opportunity for candidates who have a keen interest in management, service development and quality.

Candidate Requirements

- Minimum of 4 years phlebotomy experience
- Must have clinical/scientific, technical and administrative capacity to fulfil the functions of the role.
- Management experience is desirable
- Experience of ISO 15189 laboratory accreditation and JCI Hospital accreditation is desirable
- Excellent communication and interpersonal skills
